PROFESSIONAL SUMMARY

Front-End Developer skilled in **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Built multiple projects with modern practices including SSR/SSG and REST API integration. Passionate about clean code and eager to contribute to a development team.

PROJECTS

- CoreStock** | Next.js, TypeScript, Tailwind CSS, Redux, Axios Present
- Built a full-featured **inventory management system** with real-time data synchronization
 - Implemented **cookie-based session authentication** with Next.js middleware for protected routes
 - Integrated RESTful APIs using Axios with centralized error handling and loading states
 - Managed global state with **Redux Toolkit** for predictable data flow across components
- Reelax** | Next.js, TypeScript, Tailwind CSS, TMDb API 3/26
- Built a modern **movie discovery platform** with Arabic localization and RTL support
 - Integrated **TMDb API** to fetch trending, popular, and top-rated movies in real-time
 - Implemented interactive **star rating system**, trailer modals, and favorites using localStorage
 - Designed a cinematic UI with **hero slider**, skeleton loading, and smooth Framer Motion animations
- Shogol** | Next.js, React, Tailwind CSS 2/26
- Built and deployed a **Freelancers platform**
 - Implemented responsive design ensuring seamless experience across all devices
 - Integrated job filtering by category, location, and experience level
 - Optimized performance using Next.js image optimization
- AskAway** | Next.js, TypeScript, Tailwind CSS, Framer Motion 1/26
- Built a modern **AI ChatBot interface** with real-time streaming text responses
 - Implemented **conversation management** with search, rename, export, and localStorage persistence
 - Integrated **markdown rendering** with syntax-highlighted code blocks and copy functionality
 - Designed responsive UI with **dark/light mode**, smooth animations, and collapsible sidebar

TECHNICAL SKILLS

Languages

TypeScript · JavaScript (ES6+) · HTML5 · CSS3

Frameworks & Libraries

React.js · Next.js · Tailwind CSS · Redux Toolkit

Tools & Platforms

Git · GitHub · Postman · Vercel · VS Code · Figma

Concepts & Practices

SSR/SSG/ISR · REST APIs · Responsive Design

EDUCATION

Alexandria University

Bachelor of Science in Agricultural Engineering

Student
Alexandria, Egypt

- Self-taught Front-End Development through online courses and hands-on projects
- Completed 200+ hours of training in modern web development technologies

LANGUAGES

Arabic

English
